## CYCLOPEAN 3D: LIFE WITH A BEAUTIFUL WOMAN

(opening sequence), 2012, Ken Jacobs, 5 min. (HDCam)

In his most directly autobiographical work to date, Ken Jacobs mines his own archive of stereoscopic still images taken from the late Sixties up to about 1975. In *CYCLOPEAN 3D*, he magically transforms these photographs into mesmerizing time-based portraits of his family and friends. The opening sequence pays homage to Ken's wife Flo and daughter Nisi, alongside ever-shifting impressions of Jerry Sims, Michael Snow, Amy Taubin & Richard Foreman, and the Spoerri family. - Jon Gartenberg
